

Smoking Ash Urns

Smokers' Outpost®

Keep cigarette litter hidden from public view while maintaining a clean and neat-appearing entrance or smoking break area. The highly-durable, sturdy, and streamlined Smokers' Outpost® ash urns offer attractive designs that would complement and enhance the décor of any facility. The patented oxygen-restricting design extinguishes cigarettes quickly; no sand or water required.

Plastic units are constructed from high density polyethylene that won't fade, rust or chip. Metal units are either powder-coated aluminum or steel construction for long service lives.
